I spoke with Enrique last Friday. I think we agree on trying to close this as soon as we can and get a deal. For me, the good news is that the 1X is within reach even if we close before November.

We'll talk about it later. If there is any improvement if we closed on Nov. 30 and these cash flows are complied with, but we'll have to consider other factors:

<!--[if !supportLists]-->• <!--[endif]-->Deal activity (pipeline weak and, if we can tell good things before the LP, I think it'd be positive for everyone)

Paz / Charles,

I'm sending you the analysis on what our returns would look like in Gayosso depending on the closing date, considering the terms we have on the term sheet with El-Mann.

One more thing: The company doesn't have a new cashflow forecast for the 2019 closing yet (they can work on it, but it'd take them a little while, since they're very busy with due diligence), so I'm considering the cash we have as of May and the monthly flows from June to December according to the plan (considering the incremental cost of GIN).

We can discuss this whenever you want.

Regards,
Vero

Lo hablé con Enrique el viernes pasado. Creo que coincidimos en que tratemos de cerrar esto en cuanto podamos y tengamos un deal. Para mi la buena noticia es que el 1X está al alcance incluso si cerramos antes de Noviembre.

Paz / Charles,

Les mando el análisis de cómo se verían nuestros retornos en Gayosso dependiendo de la fecha de cierre, considerando los términos que tenemos en el term sheet con El-Mann.

Un comentario adicional, la compañía no tiene todavía un nuevo forecast del cashflow para el cierre del 2019 (lo pueden trabajar pero tardarían un poco ya que están a tope con el due diligence) por lo que estoy considerando la caja que tenemos a mayo y los flujos mensuales de junio a diciembre de acuerdo al plan (considerando el costo incremental de GIN).

Podemos comentar cuando quieran.

Saludos,
Vero
